THE VISION

- To provide a truly high quality blended learning solution for the Irish care community.
- To provide remote, on demand learning resources and content accessible to learners.
- Provision of an E- Learning Hub that complements the current face to face LHP Skillnet educational offering.
- To provide information on LHP Skillnet face to face training through LHP Skillnet team.

About Altura Learning

- **Altura Learning** is a leading provider of training solutions to the international care sector, and have been working with LHP Skillnet to design the E-Learning Hub since 2019.
- The Altura Learning community consists of **over 750 care organisations, 150,000 learners and 50 industry experts** worldwide, who all share best practice in care via HD video based training with the ultimate goal of improving the quality of care for those who require support.
- **What you need matters!** When you join our learning community we involve you and your teams which, combined with the feedback from our extensive member community helps us to develop new courses and explore new ways of working.
- Positive relationships with, **LHP Skillnet, HCCI and NHI** have allowed Altura Learning to work with industry experts and collaborate on wider Altura productions, including **Altura Now**.

YOUR E- LEARNING HUB

- Courses are **accredited by NMBI, CPD** and approved by LHP Skillnet and member companies.
- Links to LHP Skillnet's wider range of training resources, for a truly **blended learning approach**.
- Course library, **part funded**, **designed for members by members**, where the content is constantly monitored and updated.
- Content can be accessed **anywhere at anytime**, via any internet-connected device
- All video courses are **filmed in real nursing homes and homecare settings**, using real staff in real scenarios.
- **Three levels of assessment** to ensure learning is embedded.
- Quickly and easily **create your own online courses** - bespoke to your organisation e.g. inductions, policies and procedures etc.

Altura Learning Original Content Production Process

- **Research** Content
- Consultation with **Subject Matter Experts**
- Briefing Creative Team
- Script Development (this involves scriptwriting with SME review)
- Pre-Production (this involves casting, scouting locations, securing crew)
- Production (this involves **filming, under clinical supervision**)
- Post-Production (this involves **editing** and the creation of graphics, with both **clinical** and **SME review**)
- **Delivery** (videos and learning resources distributed via all our platforms)

How courses were designed & accredited for Ireland

- LHP Skillnet selected courses for the **residential *and* homecare library.**
- **Subject matter experts** and **Industry experts** from LHP Skillnet's Steering Group were selected to review courses.
- Reviewers provided **feedback, recommendations and resources** which Altura's Learning and Development team built into the courses.
- LHP Skillnet applied for **NMBI accreditation** and it was granted across all courses.
- An ongoing project, **led my members**, will grow the library even further.

*Your organisation may be eligible for part funding by LHP Skillnet

Member Quotes

Sonas Nursing Homes

“As our nursing homes are spread out across the country e-learning is a convenient and flexible way for us to deliver training as the resources are available from anywhere and at any time. e-learning is a very efficient way of delivering courses online, our plan is continue to develop courses that can be delivered online to maximise the potential of the system.”

“Our teams have been very positive about the system, they are finding it easy to navigate through and the functions are very user friendly. Our management and support teams will benefit hugely from the reporting function within the system as the information is very easily accessible to them.”

Olivia O’Geraghty, HR Manager - Sonas Nursing Homes

Member Quotes

Castleturvin House Nursing Home

"We are loving the new training portal here at Castleturvin House Nursing Home. It is so refreshing to have video-based learning that is specific to nursing homes with very relevant nursing home content.

We are very happy with staff progress so far considering we are new to this way of training staff, but so far so excellent."

Clodagh Killeen, Clinical Nurse Manager - Castleturvin House Nursing
